

St. Joseph School Arts Integration

Arts Integration at St. Joseph School

At Saint Joseph School every student is an artist - thriving in an environment that goes beyond textbooks to offer a curriculum energized with music and dance, poetry and drama.

Weaving the arts into math, science, social studies, and language arts creates an enriching classroom experience unlike any other found in the greater Green Bay area.

This artistic and very personalized approach speaks to the nine areas of learning:

Logical/Mathematical

Visual/Spatial

Bodily/Kinesthetic

Naturalistic

Interpersonal

Verbal/Linguistic

Intrapersonal

Musical/Rhythmic

Spiritual
